p. 256	모범답안	The main class of people criticized in the passage is the poor, specifically in regards to their easy willingness to turn their children over to state-supported care.	Humanitarian sympathy(또는 emotion: sentiment) toward neglected children.
p. 257	Note-Main Idea	State or charitable institutions will gradually take over caring for neglected children.	Humanitarian sympathy toward neglected children could lead to the weakness of the family.
p. 257	Note-Summary	Though we cannot know for sure, the current tendency to treat neglected children in a more humanitarian way seems to indicate that in future, people of a low economic level will more and more come to turn the care of their children over to the state.	Humanitarian sympathy toward neglected children could lead to the weakening of the family. State or charitable institutions tend to take over caring for neglected children. Consequently unconscientious parents, especially poor parents, will more and

			more come to turn the care of their children over to the state.
p. 303	Note-Main Idea	The house in which the narrator is currently living is clean yet too austere and uninviting reflecting the character of its owner.	The house the narrator is visiting is austere and uninviting, reflecting the character of its owner.
p. 303	Note-Summary	The house where the narrator is currently living is clean yet too austere and uninviting reflecting the character of its owner. Inside everything is spotless and shines, with a cleanliness and lack of color that is oddly featureless. The order and cleanliness gives an impression that is cold and unwelcoming. Attributing to this impression is the uncomfortable and harsh furniture. Although the writer thinks and reads in the quiet of her room, she does not like it there and is planning to escape. p. 321	Note-Summary	T-shirts have become a means to convey ideology, associate one with products, and make statements. In the 1940s, shirts began to show political content, and then later commercial logos and designs in the 60s so people could show their associations with certain products or political or social points. At times shirts were “grassroots resistance,” such as when bootleggers fabricated shirts bearing their own	The T-shirt has been used as a means of commercial, social and political communication. Some people wear T-shirts to take part of “unpaid advertising,” showing their associations with certain products. Also, people wear T-shirts to illustrate their support for political or social points. Even T-shirts can be the means to “grassroots resistance,” such as when bootleggers fabricated shirts bearing their own African-American versions

p. 337	Note-Summary	Oprah's show presents herself as real and friendly as she gives her thoughts and talks with both celebrity and inspiring guests. All of the images at the beginning of the show relax and assure the audience that Oprah is a kind, caring, fun-loving individual who is really is "real." When Oprah first appears, she sets the stage and the mood for what is to come.	Oprah's show opens with images establishing her as real and friendly. After this she gives some thoughts and observations before talking with both celebrity and inspiring guests about various topics.
p. 381	Note-Main Idea	Following the Civil War, slavery was done away with and many who suffered before improved their situation. Though racism continues, it's not as severe as it would be if the South had won.	The Union's victory in The Civil War has several crucial contributions to the history of USA. Though there were limitations, the Union's victory excluded a much more oppressive result.
p. 303	Note-Summary	Following the Civil War, slavery was done away with and many who suffered before improved their situation. Though it may still seem like racism continued nonetheless, there would have been a worse situation in the form of an expanded empire of slavery had the South claimed victory.	The Union's victory in The Civil War has several crucial contributions to the history of USA. The Union's victory expelled southern rulers, created a new financial system, and above all destroyed slavery. Though there were limitations such as severe racism in the southern states of United States, the Union's victory excluded a much more oppressive result. Also, it helped other slave

			nations to abolish slavery.
p. 401	Note-Summary	<p>The Kickapoo Indian Medicine Company was typical of the traveling medicine shows in America in the late 19th and early 20th centuries. They presented acts that were similar to those of circuses, including acrobats, magicians, and so on. Some performances were free and some charged adults a dime to get in, but the shows made most of their money by selling “medicinal” concoctions that were supposed to be able to cure almost any ailment.</p>	<p>The Kickapoo Indian Medicine Company, which traveled all over America in the late 19th and early 20th centuries, presented entertainment and medicine shows using Native American actors and props in order to promote sales of the medical concoctions. The performers of such shows were white posing as doctors and professors and Indians who pretended to be of the “Kickapoo” tribe. The troupe members’ clothing was distinctive and peculiar. Some performances were free and some charged adults a dime to get in, but the shows made most of their money by selling “medicinal” concoctions such as “Sagwa” that were supposed to be able to cure all ills.</p>
